1. Introduction

Introducing HUMP Coin, the latest sensation in the world of meme coins on the SOLANA blockchain!

The world of cryptocurrencies is no stranger to innovation and creativity. The birth of Hump Coin represents a truly unique approach to developing a new meme coin in the vast crypto ecosystem.

Hump coin was initially born to combat the insidious growth of **bots** and **sniping** by allocating up to 55% of all available tokens to project donors prior to DEX listing, through both private sale and pre-sale launch.

Tasked with the challenge of creating a new and unique character for the next big meme coin, we engaged a small group of friends and enthusiast to raise funds and social awareness. With the help of AI image generating software, we were also able to render an image and theme to compliment the new meme token.

This white paper outlines the fundamental principles and features of Hump Coin, including its tokenomics, distribution plan, and the essential elements that make it stand out among the countless other cryptocurrencies in the market. As we embark on this exciting journey, we invite you to join us and discover the broader cryptocurrency landscape.

<u>Phase 1</u>	<u>Phase 2</u>	<u>Phase 3</u>
Website Development.	Deploy Website.	Token Listing Launch On DEX.
Social Media Development.	Deploy Social Media.	Pre-Sale Token Allocation.
White Paper.	Awareness Campaign.	Marketing Stage 3.
Tokenomics.	Launch Contribution Campaign.	Beta Test Hump Coin Game.
Register Token.	Audit Token.	Initiate CoinGeck / CoinmarketCap Lising.
Initiate Marketing.	White Paper Addendum.	Hump Coin Character Completed ('Cam' the camel).
Community Contribution To Develop The Hump Coin Character.	Marketing Stage 2.	Social Media Community Updates.
Initiate AI Marketing Videos.	Initiate Hump Coin Game.	Initiate Advertising Campaign.
Consult Progress With Community	Deploy AI Marketing Videos.	

2. Tokenomics - Humpanomics

Total Supply: 30 billion \$Hump tokens
Buy / Sell: Only 1%

In consultation with with our community stakeholders, 80% of hump coin tokens will be sold in private sale. This position was considered and accepted because of the limitations in PinkSale's crowd funding site, including staking. This community driven concept is further testimony to our community's long-term commitment to ensuring Hump Coins success.

Due to the staking limitations on the Solana network, we will be distributing 3.3% of Hump coin tokens in the form of marketing and Air Drops. We feel this is a good option for investors interested in generating yields on their long-term investments who aren't bothered about short-term fluctuations in price, and is further testimony to our long term commitment.

Total Supply 30,000,000,000 30 Billion

Private-Sale Allocation	24,000,000,000	(24 Bill)	80%
Team Allocation	5,000,000,000	(5 Bill)	16.6%
Marketing Allocation	1,000,000,000	(1 Bill)	3.33%

Pre-Sale Allocation:

Our goal is to allocate up to 55% of Hump coin tokens through community and private pre-sale channels. All our contributors, whether from the Hump coin inspired community, private or public contributors, they will all be directed to the official Hump coin hump coin launch site:

<https://www.humpcoin.org/>

Public Allocation:

Our goal is to allocate up to 80% of Hump coin tokens through decentralised exchanges, with the ultimate goal of gaining traction, awareness and exposure on larger DEX platforms. This is necessary to ensure longevity, contributor investment concerns and price stability and growth.

Supply and Liquidity

\$Hump Coin has a fixed supply, meaning no additional tokens will be minted in the future. This approach ensures scarcity and value preservation for token holders. Preservation is also maintained through community consensus to allocate up to 80% of to private sale. Liquidity is provided through private funding, pre-sale funding and decentralised exchanges, allowing holders to trade the token freely and securely.

Key Features:

- Token is immutable - YES
- Revoke Freeze - YES
- Revoke Mint - YES
- Staking - YES
- Community Driven

3. Technology

Hump Coin is built on the Solana blockchain. The smart contract ensures secure, transparent, and efficient transactions without the need for a central authority while maintaining high throughput. Solana's unique consensus mechanism, called Proof of History (PoH), combined with the use of Tower BFT technology, allows it to achieve industry-leading throughput. Furthermore, Solana was also specifically selected because of the higher fees incurred by competitive networks like ERC-20.

4. Road-map - Community driven (Updated March 2024)

Hump Coin Road-map: A Community-Driven Journey

Hump Coin embraces a unique approach to our development and future direction. Hump Coin thrives on the vibrant creativity and diverse insights of our community, comprising developers, content creators, digital enthusiasts and crowd funding contributors. This approach ensures our road-map.

Why a Community-Driven Road-map?

To foster a robust community, engaging with potential investors and users on social media and other online platforms is essential.

Our community plays a crucial role in the development of Hump Coin. A strong community can help promote the coin, attract new investors, and provide valuable feedback on features and potential moving forward. Such involvement is the inspiration for upcoming features such as humorous audio/visual memes and interactive digital games.

Innovation:

Our community is our strength and has been the backbone for the concept of Hump coin. From the very beginning, our mascot Cam the camel, AI generated short clips and graphics, and even up and coming games for mobile devices, these were all innovative ideas that were conceived through community interaction and involvement.

The collective wisdom and support of our community are boundless sources of innovation. This model enables us to tap into a wide range of ideas and perspectives, driving Hump Coin towards uncharted territories within the harsh desert environment of the crypto meme universe with confidence. Community inspired games, that can be played on your computer or phone browser, are only the beginning of the climb to succeed in reaching the summit of the treacherous desert mountain terrain.

There is much more to come, to ensure Hump coin and Cam the camel is here for the long journey ahead.

Flexibility:

The meme token world is dynamic, with trends and interests evolving at a rapid pace. A community-driven road-map allows us to pivot quickly, embracing new opportunities that align with our collective vision. Such involvement was the overwhelming consensus through community collaboration over 2 months and was the impetus to initiate 'Cam' the camel – Hump coins official mascot.

Inclusivity:

By involving the community in our decision-making process, we ensure that Hump Coin reflects the genuine interests and passions of those it serves. This inclusivity fosters a deeper sense of ownership and engagement among all stakeholders.

Pre-Sale:

For some of you out there, you may feel a bit lost in the vast desert that is the cryptocurrency ecosystem. Or perhaps you feel that it is too daunting to learn and understand how it works. Despite crypto being the new buzzword and its inevitable future in our daily lives, many people blow it off rather than take action

With the assistance of specialised marketing and crypto IT professionals, we have pooled together our collective intellectual resources to solve this problem... *i.e.* our own community crypto meme coin.

To safeguard everyone that participates in this exciting and unique new venture, we will be distributing up to 80% of the total available tokens exclusively to everyone that joins during the private presale. In doing so, we exponentially increase the opportunity for success and, more importantly, add an extra layer of protection by minimising our exposure in the decentralised market ecosystem of cryptocurrency. Coupled with the community suggested and driven staking policy, further endorses our community spirit to long term commitment and success of Hump Coin.

Character:

Set in 7th century Arabia, Hump Coin is based on 'Cam' the camel, an endearing and jovial spirited camel that embarks on a quest to collect as many Hump coins on his journey through the harsh and vast Arabian desert. Not only is Cam strong and enduring, he will ensure the journey will be a long and sustainable one. Through the vast crypto desert, Cam will travel through dust storms, heat, wind and arid terrain to take you to an unprecedented crypto oasis. Cam can take a heavy load, so lets not leave anyone behind in the dry desert.

5. Conclusion

Hump Coin aims to establish itself as a leading meme coin with a unique identity and a strong focus on simplicity, fairness, and community engagement. By prioritising decentralisation, fairness and community, Hump Coin aspires to create an inclusive ecosystem that enables sustainable growth, innovation, and long-term value for its holders. All this through the simplicity of a character and a meme coin.
